Re: Addendum to the Site Operations Plan  
Asbestos Disposal Sites

Dear Nigel:

Enclosed please find two copies of the revised Addendum to the Site Operations Plan which incorporates the comments discussed at the meeting between HART, EPA and NJDEP representatives on January 6, 1987.

As we discussed at the January 6 meeting, the metal detection survey at the Great Swamp Site is anticipated to begin on January 12, 1987. After the completion of the metal detection survey, we will meet with you and NJDEP to discuss the location of the test pits. We would like to begin the test pit operations on January 19, 1987.

Sincerely,

FRED C. HART ASSOCIATES, INC.
